Objective

As a versatile Front-end Developer, my goal is to leverage expertise in front-end technologies to build scalable, responsive, and visually engaging web applications. I aim to collaborate with cross-functional teams to deliver high-quality solutions from concept to deployment.

Education

2024/09 – present Chandigarh, India	MCA <i>Panjab University</i>
2021/09 – 2024/06 Chandigarh, India	Bachelor's of computer Applications(BCA), <i>Post.graduate.govt.college 46 B Chandigarh</i>
2021/09 – 2022/07 Chandigarh, India	'O' Level <i>NIELIT </i>
2019/07 – 2021/07 Chandigarh, India	12th, <i>G.M.S.S.School sector 32</i>

Skills

- | | | |
|-----------------------|------------|--------------|
| • HTML,CSS,Javascript | • DBMS,SQL | • C,C++ |
| • Java | • Python | • Git/GitHub |

Projects

2025/08 – 2025/11	Petroleum Management  This is a Java-based web application that helps manage petroleum sales, fuel types, and stations. It is built using Servlets, JSP, JDBC, and PostgreSQL.
2025/03 – 2025/04	Brick breaker  This is a simple 2D brick breaker game developed in Java using AWT (Abstract Window Toolkit) and Swing for the graphical user interface.The game features a paddle controlled by the player,a bouncing ball, and multiple bricks arranged in a grid.The player's goal is to break all the bricks by bouncing the ball off the paddle without letting it fall.
2025/02 – 2025/03	Morse_code  I created morse code application using C++ language. But this would've been successful only if it is Physically Possible to make it more scalable and practical i used Arduino Uno which is part of IoT(Internet of things)
2023/06 – 2023/07	Bliss(NGO)  Developed a dynamic online platform for Bliss NGO to promote mental health awareness. The site features a user-friendly interface with resources, counseling services, and community forums, creating a safe, inclusive space for support and connection.

Hackathons

Zinnovations 3.0

Led team *newBees* in a national-level hackathon with 900+ participants. Developed an innovative solution, improved technical problem-solving, strengthened presentation skills, and learned to perform under pressure.

Smart India Hackathons(SIH)

Participated in SIH with a solution focused on sustainability and environmental impact. Contributed to ideation, rapid prototyping, and problem-solving aligned with the “Green India, Clean India” theme.

Organisation

National Service Scheme(NSS)

Completed 120 hours of community service, contributing to social welfare activities, cleanliness drives, and public awareness campaigns.
